Smoke-free Makes Sense for Hammond Businesses!

20% increase in revenue from 2014 to 2017.

Hammond's smoke free ordinance went into effect in **2015.**

The implementation of a smoke free ordinance in Hammond has not detoured local bar and venues patrons. In fact, the data suggests Hammond area patrons embrace smoke free bars and venues and patronize these places more so than when smoking was allowed, signaling a win for local business owners and the health of Hammond residents and visitors.

This graph indicates bar revenues two years before the passage, the year of passage and two years post-passage.
